

STOP PLAGIARISM AND FOSTER ACADEMIC HONESTY

Professional and academic reputation of institutions are at risk when plagiarism goes undetected

OrigCheck™ enables institutions to incorporate robust anti-cheating measures. Each student's work will undergo authenticity verification by comparing academic databases, journals, entire Internet and also other submitted students' assignments of your institution. The comprehensive report shows similarity with different resources with interactive exclusion of references.

Control Copy Paste to Enforce Academic Integrity

OrigCheck™ is for Faculty

Teachers can create assignments and invite students to submit their work. All features for submission like management like deadlines, automated reminders, percentage of originality, Online marking, review and feedback.

Possible to set different types of assignments, teachers can decide what students can submit and what they can see. Facility to bulk import/export data, send notifications and much more. Based on assignment settings, teachers can mark assignments by grades (through letter grades like A, B etc., numerical grades or even use their own **rubrics**).

OrigCheck™ is for Students

Students can join Online assignment submission system based on invitation. Assignment can be submitted by uploading allowed types of files. If permitted by the teacher, student can resubmit after reviewing the first similarity report.

After marking is over, student will be notified and can see grades, feedback and comments.

OrigCheck™ is for Administrators

OrigCheck™ provides easily accessible and scalable cloud platform for the teachers and students. Developed based on innovative artificial intelligence algorithm doing deep search to capture all forms of plagiarism and yet the comparison reports are generated immediately.

All papers submitted are encrypted for total privacy. The files are not transferred to any external database and you have exclusive access to submitted files.

Cost-effective solution with futuristic service from **OrigCheck™** to establish academic integrity.

OrigCheck

Efficiently manage students submissions and provide them grades, feedback and comments in the light of originality reports. Download the data to integrate with your College or Learning Management System (CMS or LMS)

Easily submit assignments and receive feedbacks. Never miss deadlines or results publication.

Enforce academic integrity by watching plagiarism rates and popular sources.
